

Creation Mural Magnet

Items used to make this Project:

- CD-210012 Creation Mural Bulletin Board Set package header
- Magnetic sheet

Directions: Cut out the creation picture from the header. Measure the magnetic sheet to match the creation picture. Peel the paper off of the magnetic sheet and carefully lay the picture on it. This is great to put on your refrigerator, or you can cut up the mural by the days of creation and use it as a puzzle on a cookie sheet.
