

Generic Game Boards

Items used to make this Project:

- Various Carson-Dellosa Borders
- Matching Carson-Dellosa Colorful Cut-Outs
- Construction paper
- Glue or tape

Directions: Take the package header cards (the blue part that is stapled to the bag and usually gets thrown away) and cut out the pieces pictured. Use those pieces to design a generic game board. Since you are leaving the game board generic, you can use it over and over again for any subject. Carson-Dellosa Colorful Cut-Outs or Novel Notes make great game cards on which to write your questions.
