

Magnetic Spelling

Items used to make this Project:

- CD-5241 Alphabet Shape Stickers
- Cookie sheet
- Self-adhesive magnetic tape
- Magnetic picture frame

Directions: Place the Alphabet Shape Stickers on the self-adhesive magnetic tape. Cut the letters out to make a magnet of each letter of the alphabet. Put the name or word to be spelled in the magnetic picture frame and attach the frame to the cookie sheet. The students will use the letter magnets to spell the word. You can also put a question in the picture frame and have the students spell the answer with the magnetic letters.
