

Pumpkin Vine Counting

Items used to make this Project:

- CD-4452 Blank Multicolored Sentence Strips
- CD-120022 Pumpkins Mini Cut-Outs (Single Design)

Directions: Draw a vine on the green blank sentence strip. Create labels with one number on each label (numbers 1–8). You will need two copies of each number label. Next to each number on the labels, place the coordinating number of dots to represent the number. Place one set of number labels on the vine in numerical order. Place the other set of number labels on the Pumpkins Mini Cut-Outs. The students will match each pumpkin with the label on the vine that has the same number of dots.
